PROFESSIONAL EXPERIENCE

Staff Developer   2021 - PRESENT
Helcim, Calgary, AB

Working on high level software initiatives and strategy, as well as mentoring developers across the company.

- Writing and maintaining internal articles, delivering presentations and workshops teaching developers a wide variety of software concepts, tools and methodologies.
- Leads technical projects and initiatives setting direction and making key technical decisions.
- Helping teams adopt continuous delivery deployment strategies using feature flags and canary releases.

Software Architect   2019 - 2021
Helcim, Calgary, AB

Consulted with development teams to help with architectural decisions.

- Performed regular meetings with each development team discussing solutions to architectural concerns they were facing.
- Built producer/consumer libraries for Kafka, and worked with teams to help them integrate event based architectures within their services.
- Built and maintained a web framework inspired by express.js and laravel.

Team Lead - Payments   2018 - 2019
Helcim, Calgary, AB

Led a team of 5 developers to build and support payment related services.

- Rebuilt the payments platform from the ground up into a series of small testable microservices.
- Mentored and trained a team of predominantly junior developers.
- Worked against fast paced agile product requirements.

Full Stack Software Developer   2016 - 2018
Helcim, Calgary, AB

Worked as a full stack software developer on a variety of projects.

- Worked with banks to integrate with multiple payment gateways.
- Built an iOS mobile POS system with integrations with a variety of different payments devices.
- Worked against fast paced agile product requirements.

EDUCATION

Bachelor's Comp. Information Systems   2012 - 2016
Mount Royal University, Calgary, AB
